The status of the claims is as follows:

Claims 1-7 (claim 7 newly added) are herein addressed below.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, lines 1-7, it is not readily apparent to the Examiner if the applicant is claiming a device or a device in combination with either a single leaf door OR a double leaf door. Throughout the claims, the applicant clearly and positively sets forth both the single leaf door and the double leaf door throughout the claims. If the applicant intends on claiming the combination, then the applicant should clearly and positively set forth the door(s) in the preamble.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

As best understood, claims 1-7 are further rejected under 35 U.S.C. 102(b) as being anticipated by Rieger et al. (6,039,364). As shown in Figure 3, Rieger et al. (6,039,364) disclose a cabinet assembly comprising a door (1) a guiding element (3, 4, 11) having a pair of sloped surfaces (5 and 6) which are “substantially” perpendicular to each other and tapered away from a fastening surface (any one of the three surfaces, 3,4, or along either side), and wherein when the door is closed the weight of the door is

Art Unit: 3634

transferred to the guiding element. [note: with respect to claim 7, little to know patentable weight is given to the "type" of cabinet that the applicant is trying to claim since no structural limitations which would define and/or distinguish any cabinet from a "switchgear" cabinet and therefor any cabinet can be considered a "switchgear" cabinet.]

Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
